OUT IN THE COMMUNITY

MID-RANGE INDICATOR – HOSPITAL ADMISSIONS

3. Hospital Admissions

WHY

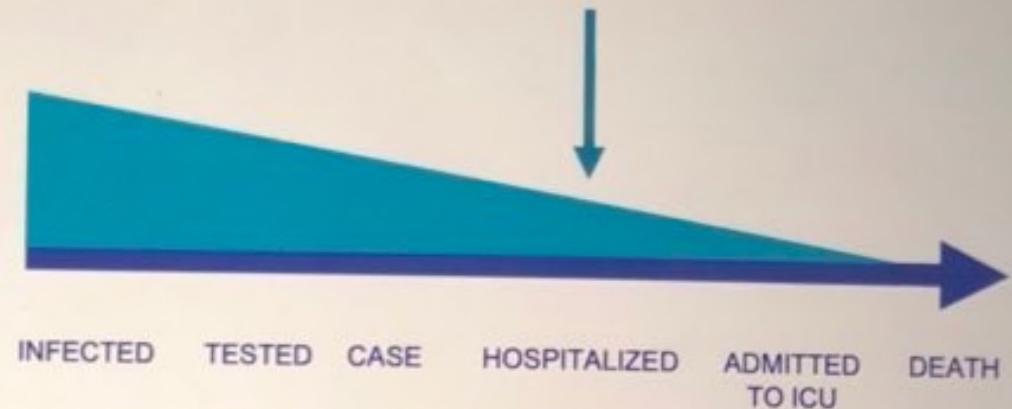

Hospital admissions is a mid-range indicator of declining hospital capacity and potentially accelerating case growth.

REQUIREMENTS

Maintaining hospital capacity is necessary to reduce deaths and prevent disease amplifications.

Must ensure:

- Hospitalizations not going to exceed available beds
- Health care worker absenteeism is manageable
- Supplies of personal protective equipment, ventilators, and essential medical supplies

Metric Example:

Stable or declining number of people hospitalized for COVID-19*

**May need to adjust to accommodate flu season or other surges*

SUMMARY OF COSTA MESA ACTIONS AND UPDATE FROM COSTA MESA'S BAC

❖ NEW

- ❖ **Business Assistance Call Center**
- ❖ **Costa Mesa BAC Website**
- ❖ **Small Business Loan Program**

ORANGE COUNTY REGIONAL VARIANCE LOCAL ATTESTATION METRICS – AWAITING STATE RESPONSE

County case metrics

- ✓ Stable hospitalizations of COVID individuals
- ? Less than 8% testing positive in the past 7 days. *OC attested ~7.9%*

County preparedness

- ✓ Minimum daily testing volume to test 1.5 per 1,000 residents – *OC needs 5,000, has 9,000*
- ✓ Testing availability for at least 75% of residents within 30 minutes driving time.
- ✓ County (or regional) hospital capacity to accommodate a minimum surge of 35% due to COVID-19 cases in addition to providing usual care for non-COVID-19 patients.
- ✓ Plans to prevent and mitigate infections in skilled nursing facilities
- ✓ Sufficient contact tracing.

- ✓ Skilled nursing facilities (SNF) have more than a 14 day supply of PPE on hand for staff, with an established process for ongoing procurement from non-state supply chains.

County response

- ✓ Availability of temporary housing units to shelter at least 15% of county residents experiencing homelessness in case of an outbreak among this population requiring isolation and quarantine of affected individuals.
- ✓ County (or regional) hospital facilities have a robust plan to protect the hospital workforce, both clinical and nonclinical, with PPE.
- ✓ Guidance for employers and essential critical infrastructure workplaces on how to structure the physical environment to protect essential workers.

COUNTY TESTING

OC COVID-19 Testing Network

The following locations offer FDA-authorized COVID-19 testing to Orange County residents who have symptoms of COVID-19. This test identifies if you are currently infected based upon a sample taken with a swab. It is not a blood test, nor does it test for antibodies. The most common symptoms of COVID-19 are fever, cough and shortness of breath. Other symptoms sometimes include: fever, chills, repeated shaking with chills, muscle pain, headache, sore throat, and loss of taste or smell. This list is not all inclusive. You will receive a medical assessment before being tested and you will only be tested if you have symptoms of the disease.

There is no out-of-pocket cost to you for this testing, however your insurance may be billed. You are asked to contact your medical provider first and only access these services if you do not have a provider or your provider is unable to provide testing.

Because of continued challenges of obtaining testing supplies and Personal Protective Equipment (PPE) for health care providers conducting tests, testing may be restricted at times to high priority groups, as defined by the California Department of Public Health or Orange County Public Health.

You **MUST** make an appointment for testing with one of the clinics below to assure eligibility and availability of testing.

❖ SOS Health Center (1550 Superior Ave.)

- ❖ Monday to Friday
- ❖ Appointment Required
- ❖ (949) 270-2100

❖ UCI Health in various locations

- ❖ Call site for details
- ❖ Appointments & screening
- ❖ (714) 456-7002

*Each business needs to have a written plan demonstrating compliance with the health and safety requirements.

RESTAURANTS AND BARS DURING THE COVID-19 PANDEMIC

The purpose of this tool is to assist businesses in the food service industry, such as restaurants and bars, in making (re)opening decisions during the COVID-19 pandemic. It is important to check with state and local health officials and other partners to determine the most appropriate actions while adjusting to meet the unique needs and circumstances of the local community.

Should you consider opening?

- ✓ Will reopening be consistent with applicable state and local orders?
- ✓ Are you ready to protect employees at higher risk for severe illness?

ANY
NO

ALL
YES

Are recommended health and safety actions in place?

- ✓ Promote healthy hygiene practices such as hand washing and employees wearing a cloth face covering, as feasible
- ✓ Intensify cleaning, sanitization, disinfection, and ventilation
- ✓ Encourage social distancing and enhance spacing at establishments including by encouraging drive-through, delivery, curbside pick up, spacing of tables/stools, limiting party sizes and occupancy, avoiding self-serve stations, restricting employee shared spaces, rotating or staggering shifts, if feasible
- ✓ Train all employees on health and safety protocols

ALL
YES

Is ongoing monitoring in place?

- ✓ Develop and implement procedures to check for signs and symptoms of employees daily upon arrival, as feasible
- ✓ Encourage anyone who is sick to stay home
- ✓ Plan for if an employee gets sick
- ✓ Regularly communicate and monitor developments with local authorities and employees
- ✓ Monitor employee absences and have flexible leave policies and practices
- ✓ Be ready to consult with the local health authorities if there are cases in the facility or an increase in cases in the local area

ALL
YES

OPEN AND
MONITOR
